

An operational efficiency roadmap helps you actively plan for higher profits, more sustainable work practices and the ability to maintain a long-term, high quality brand presence in market.

**Top tips when starting your roadmap:**

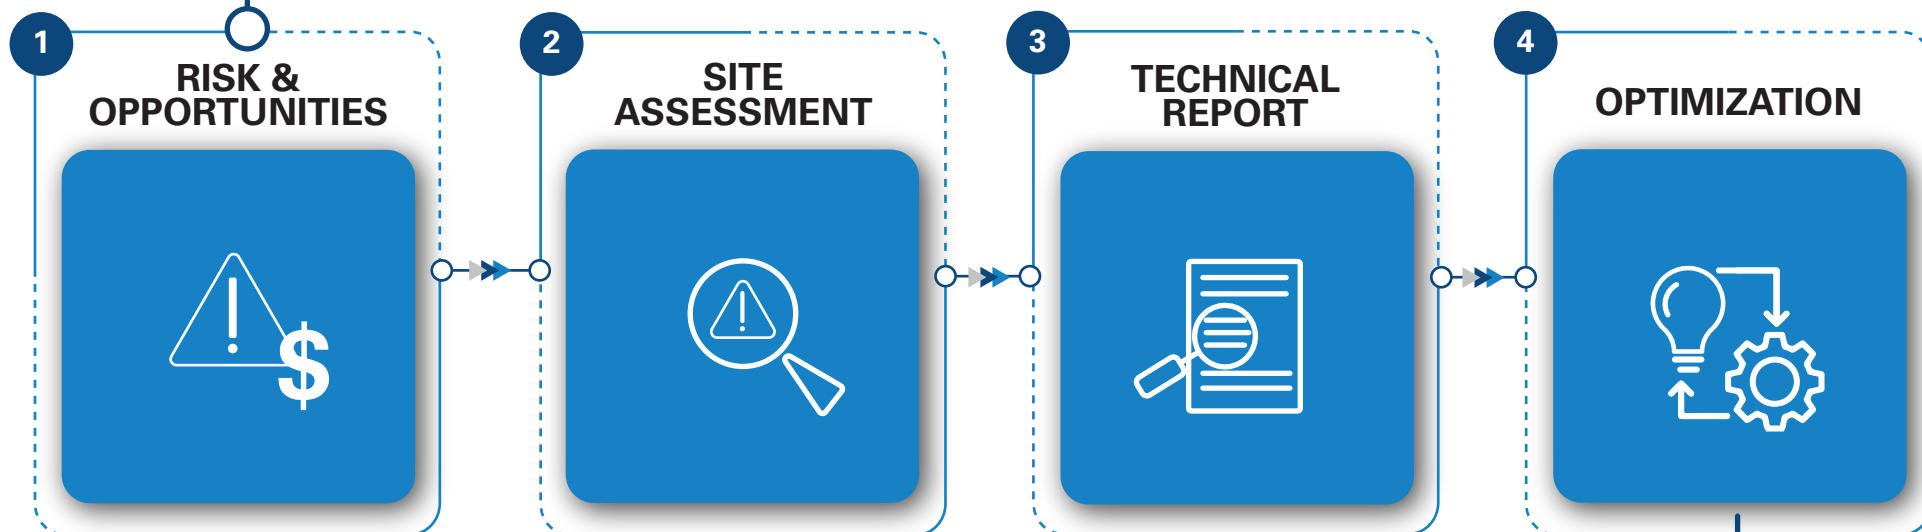

- Gain consensus from organizational leadership.
- Consider integrating your HACCP Analysis and Plan into your roadmap to ensure that it builds on existing GMPs rather than working in isolation.

**GAIN LEADERSHIP CONSENSUS AND BUY-IN**

**BUILD ON EXISTING GMPs**

Remember, we're here to help! Donaldson can assist with a thorough site assessment of your current filtration installations and help with customized solutions or recommend existing solutions – or a combination of both.

**CONSULT WITH  
DONALDSON  
FILTRATION  
EXPERTS**

**EVALUATE, TROUBLESHOOT AND ITERATE**

**CELEBRATE OPERATIONAL EFFICIENCY GAINS**

Your roadmap may reveal new challenges and require you to add new solutions or refine your approach. Remember that this is another great opportunity to get your Donaldson team involved. We love a challenge and we're here to help you with even the most complex of filtration needs – don't hesitate to get us in to your facility to help you troubleshoot areas that need refinement.
