

DONALDSON DELIVERS

# Next Generation Front Service Engine Air Cleaner

**PowerCore® Edge™**

## Bringing top filtration technology to the next level.

### Easy front servicing

Robust snap fit latches for fast and easy front service access

### Improved pre-cleaner maintenance

Designed to easily separate into two pieces to allow for fast and easy cleaning

### PowerCore filter element

High-efficiency media technology

### Next generation pre-cleaner tubes

Bringing greater pre-cleaner efficiency for longer filter life

### Permanent scavenge line connection on the body (Optional)

#### Benefits:

- + Easy access to the filter servicing
- + Reduced overall service time
- + 100% secured scavenge connection

### Unique Seal Design

Withstands temperatures up to 100°C

### Filter Minder integrated visual indicator or wireless technology (Optional)

Choose integrated visual indicator or real-time wireless information

### Flexible mounting options

Allows for a range installation locations of attachment configurations

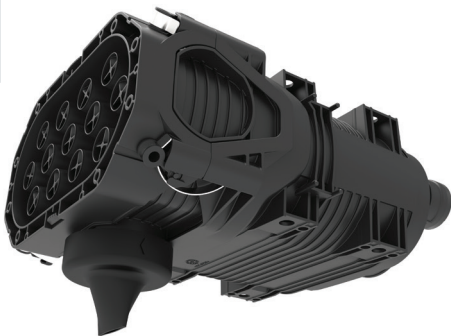

# PowerCore Edge

## Space-saving Engine Front Service Air Cleaners

Compact high-efficiency engine air cleaners for use in heavy dust environments. PowerCore Edge air cleaners are designed to fit into very tight spaces, withstand higher temperatures and offer easier servicing than previous generations of air cleaners.

### PowerCore Edge 8"

- + 5-8m<sup>3</sup>/min
- + 1" **shorter** in length compared to PowerCore PSD 8"

AC Model	Size	New AC	Main Element	Safety Element
PFD, H, Vac	8"	D080186	P958647	P957712
PFD, V, Vac		D080187		
PFD, V, Scav		D080188		

### PowerCore Edge 9"

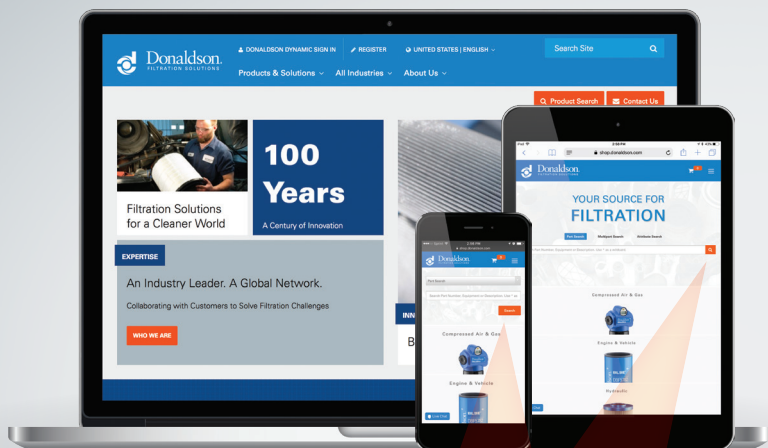

- + 7-11m<sup>3</sup>/min
- + 25% size **reduction** compared to PowerCore PSD 9"

AC Model	Size	New AC	Main Element	Safety Element
PFD, H, Vac	9"	D090357	P958648	P957732
PFD, V, Vac		D090358		
PFD, V, Scav		D090359		

- + **Unique filter element sealing** technology
- + **Serviceable** pre-cleaner
- + Improved **water tightness**
- + Increased **temperature** range (up to 100°C)
